Subject: Please Do Not Let Wal Mart Start a Bank
Date: Thursday, April 06, 2006 4:13:22 PM
Attachments:

Walmart would take local money out of local communities. They have already forced wages down across the country, put small businesses out of work and now they will be exporting capital.

I also think that the largest corporation in the world should not gain still more power by owning a bank. They have a well documented and undisputed history of breaking labor laws. I am sure they would do the same with FDIC laws too.

Sincerely Yours,

Andrew Phillips
